

To whom it may concern

**Recommendation for GeoAssistance SARL**

Perth 5<sup>th</sup> February 2008

UTS Geophysics of Perth, Australia has contracted GeoAssistance SARL of Agdal, Morocco on two occasions to facilitate logistical assistance in the preparation of geophysical airborne surveys in Morocco in 2007 and 2008.

On both occasions, the team of GeoAssistance has been very helpful and professional, which has greatly assisted us in the process of obtaining flight permits for our aircrafts in Morocco.

Their services were always provided in a transparent and timely manner, on behalf of UTS Geophysics, I therefore, have no hesitation in recommending the services of Youssef Azirar and Mustapha Bakkal of GeoAssistance SARL.

Sincerely

Fiona Wedenig  
Project Manager

UTS GEOPHYSICS a member of the AEROQUEST group of companies
